Re: IFAPA Membership

Dear colleagues,

It is my pleasure to invite you in June to Gävle, Sweden for ISAPA-2009, a world summit of APA experts and scholars, who will share their knowledge and expertise during five consecutive days, just after the Mid Summer Festival.

During this event top physiologist, biomechanists, social and educational scientists will explore methods to improve APA sport, recreation and exercise services for persons with disabilities. The registration fee for IFAPA members is less expensive than the price for non members even after acquiring a membership before the registration. You may access IFAPA's membership acquisition page directly or from the www.isapa2009.com registration.

IFAPA has recently launched its new adapted website, including a MEMBERS ONLY SECTION. You may view the site at www.ifapa.biz. For entering into the members only section, please ensure you are a member of IFAPA and then create an account at <http://www.ifapa.biz/?q=user/register>.

Remember your username and password! If you have any trouble, please ask our website administrator Jaime Kirstein jkkirstein@gmail.com for assistance. We would love to hear your feedback. Don't hesitate to email us directly, if needed.

Kind regards,

Yeshayahu Hutzler

IFAPA President
